All applicants are expected to maintain a 2.3 GPA or above in the course they are enrolled in during the scholarship period.

Conversion Table

| Grading System | Evaluation Scale | | | | |
|----------------|------------------|--------|-------------|--------|--------|
| | Pattern 1 | | 優 Excellent | 良 Good | 可 Fair |
| Pattern 2 | | A | B | C | F |
| Pattern 3 | | 100-80 | 79-70 | 69-60 | 59-0 |
| Pattern 4 | S | A | B | C | F |
| Pattern 5 | A | B | C | D | F |
| Pattern 6 | 100-90 | 89-80 | 79-70 | 69-60 | 59-0 |
| Grade point | 3 | 3 | 2 | 1 | 0 |

Formula

{("Number of credits for grade point 3" x 3) + ("number of credits for grade point 2" x 2) + ("number of credits for grade point 1" x 1) + ("number of credits for grade point 0" x 0)} ÷ (total number of registered credits)

- If the credit system is not applicable for the classes you took, use the number of subjects instead of the number of credits to calculate your GPA.
- If you are a transfer student from one university/institution to another, use the number of credits you gained at the university from which you have transferred. However, also calculate the GPA in the same way as the grades you gained before the transfer (grade point at the university/institution previously enrolled before the present one).
- The subjects for which the grades do not fit the evaluation scale, such as those evaluated as "Pass" or "Approved," must be excluded.
- A fraction in the GPA should be rounded down to the third decimal place.
