[Master's Program]

“Asian Human Resource Development Project
for Medical Professionals”
International Student Special Selection

Application Guidelines

<“Asian Human Resource Development Project for Medical Professionals”
International Student Special Selection>

The Tokyo Metropolitan Government (TMG) has established the “Tokyo Human Resources Fund for City Diplomacy” in 2015, at the prospect of over the next ten years in order to implement policies aiming at fostering excellent human resources who will contribute to the promotion of intercity cooperation in the future.

The Graduate School of Human Health Sciences, Tokyo Metropolitan University (TMU), which is run by the public university corporation founded by the TGM, is recruiting excellent international students from Asia for studying at TMU as “Asian Human Resources Development Project for Medical Professionals” under the “Tokyo Human Resources Fund for City Diplomacy” program. In this project, TMU will admit medical professionals from Asian countries to provide higher education in advanced and innovative health sciences, and thereby to promote the development of medical care in Asian countries. TMU will support Asian human resources in study and research of high health knowledge and skills.

This project provides financial supports including tuition exemption and scholarship for the students who pass the special selective examination to concentrate on their study and research.

Please note that this program is presupposed to be implemented that TMG budget for fiscal year of 2019 is enacted by 31 March 2019.

1 The number of students to be admitted

2 students

2 Application Requirements

To be eligible for the “Asian Human Resource Development Project for Medical Professionals” International Student Special Selection, the applicant must meet at least one of the requirement (1), (2) or (3), and must meet all requirements (4) to (9):

- (1) Those who have completed 16 years of academic education or will complete the education by 31 March 2019 at an overseas school/institution.
- (2) Those who have completed or will complete an over 3-year course at a university/school outside of Japan by 31 March 2019. The level of course must be equal to bachelor’s level and approved by the authorities in the concerned country or Japanese Minister of Education, Culture, Sports, Science and Technology.
- (3) Those who will be at least 22 years age as of the enrollment date, and who have been recognized by the Graduate School of Human Health Sciences, through individual screening of entrance qualifications, as having achieved academic equivalent of a university graduate. (Note 1)

(Note 1) If you do not meet a requirement (1) or (2), you must take and pass the “**3 Individual Application Qualification Screening**”.

- (4) Be either one of the following:

- (a) Those possessing a nationality of one of the Asian countries or regions (Note 2) and newly coming to Japan as an international student.

(Note 2) “Asian countries and regions” refer to the counties or regions of the East Asia, the Southeast Asia, and the South Asia, including India, Indonesia, Cambodia, Singapore, Sri Lanka, Thailand, South

Korea, China, Nepal, Pakistan, Bangladesh, East Timor, Philippines, Bhutan, Brunei, Vietnam, Malaysia, Myanmar, Maldives, Mongolia, Laos and Taiwan

- (b) Those possessing a nationality other than the above, and enrolling in an educational institution or government office with its main campus/institute/office in an Asian country/region at the time of application.
- (5) Preferably have basic Japanese ability (N5 or higher in Japanese-Language Proficiency Test (JLPT)) or intermediate English ability (e.g. IELTS 5.0, TOEFL iBT 61 points or higher) by the time of enrollment for study and life in Japan, and understand basic Japanese and understand conversations encountered in daily life (N4 or higher in JLPT) by the time of completion of the master's program.
- (6) Be willing to work for a medical institution, educational institution or civil service organization as medical professional or apply a doctoral program in an Asian country after completing the master's program.
- (7) Be willing to cooperate in the formation of a Japan-friendly human resource network of highly skilled professionals and contribute to promoting a better mutual understanding/friendship between Tokyo and overseas cities after completing the master's program.
- (8) Be able to obtain a "Student" visa at the time of entry to Japan. Those who coming to Japan with a visa or a status of residence other than "Student" or who have enrolled at a university in Japan with "Student" status of residence (including research students) is ineligible to apply.
- (9) Not fall under any of the following categories: If a successful applicant is found to have fallen under any, the acceptance to or enrollment in TMU may be cancelled.
 - (a) Those who have Japanese nationality, special permanent resident status, or who are allowed to reside in Japan permanently according to the Immigration Control and Refugee Recognition Act at the application.
 - (b) Those who are performing active military duty or civilian employee.
 - (c) Those who receive a scholarship, research fund and the like from other institutions at the time of enrollment.
 - (d) Those who have ever enrolled in a master's program of Tokyo Metropolitan University or other university in Japan as a Japanese Government Scholarship international student.
 - (e) Those who have not finished the prescribed course by 31 March 2019 in the case of being applicable to requirement (1), and have not received the prescribed degree by 31 March 2019 in the case of being applicable to requirement (2).

Before submitting the required documents, the applicant must decide the major and contact with the prospective supervisor. For further assistance on contacting faculty member, please send mail to (asia-rs_at_tmu.ac.jp) (Note 3) with title of "Asian Human Resource Development Project for Medical Professionals".

5 Admission Selection Methods

A successful applicant will be selected based on the submitted application documents (first screening) and the written and oral examination (second screening) on your subject of specialization. Results of the first screening will be mailed to all applicant via post and e-mail on 11 October 2018. Those who pass the first screening can take the second screening.

The schedule for the second screening is as follows.

- (1) Exam Date: Date designated by the Graduate School of Human Health Sciences between 20 October 2018 and 11 November 2018.
- (2) Exam Venue: The place designated by the Graduate School of Human Health Sciences
*The candidate must pay commuting and accommodation expenses yourself to take examination.
- (3) Subjects: Written and oral examinations on your subject of specialization.

*The candidate will be informed the detailed schedule for second screening by the Graduate School of Human Health Sciences.

6 Announcement of Results

27 November 2018

Results will be mailed to all examinees via post and e-mail. Accepted students will also receive a written notice of acceptance and enrollment forms.

7 Enrollment Procedures

Accepted students must complete the necessary procedures by 31 January 2019.

8 Enrollment Date

1 April 2019

9 Supports for Enrollees

The following financial and living support will be provided to those who have completed the enrollment procedures.

- (1) Entrance Examination Fee and Admission fee
Exempted

(2) Tuition Fees

Exempted for the designated duration of a master's program (two years)

(3) Scholarship

A monthly scholarship of 180,000 yen for the duration of a master's program (two years).

(4) Travel Expenses

Students will be provided with a one-way ticket (economy-class) from the nearest international airport where they live to either Narita or Haneda International Airport. When students return to their country after receiving a degree, a return ticket (economy-class) from either Narita or Haneda International Airport to the nearest international airport where they came from will be provided. Students need to pay transportation expenses between Narita or Haneda International Airport and the campus by themselves.

*If it is difficult to provide the air ticket, the university will support the expense students pay for it.

*The return ticket will not be provided for students who do not fulfill the requirements of degree or withdraw from the university.

(5) Notes

*If students violate their pledge made at their enrollment or significantly infringe the rules or other regulations of Tokyo Metropolitan University, the university shall expel them from the university and discontinue the aforementioned financial supports. The university may also demand a refund of paid scholarship as financial supports depending on the situation.

*In addition to the above, if students take a leave of absence from the university or neglect the monthly confirmation of the enrollment, the university may suspend the payment of financial supports such as "exemption of tuition fees" and "monthly scholarship."

*If students wish to live with their family, Tokyo Metropolitan University is not capable to provide any help with family matters. Students need to be responsible for all procedures regarding their family.

10 Duties after the graduation

Students who completed the program must

- (1) cooperate in the formation of a Japan-friendly human resource network of highly skilled professionals, and
- (2) contribute to development of the relationships between Tokyo and international cities by promoting a better mutual understanding/friendship.
